BOSTON MARKET

As one of the only data centers bordering Boston's central business district, BO1 is strategically positioned to provide customers with low-latency connectivity to the many financial, technological and educational enterprises located in the area.

OUR FACILITY

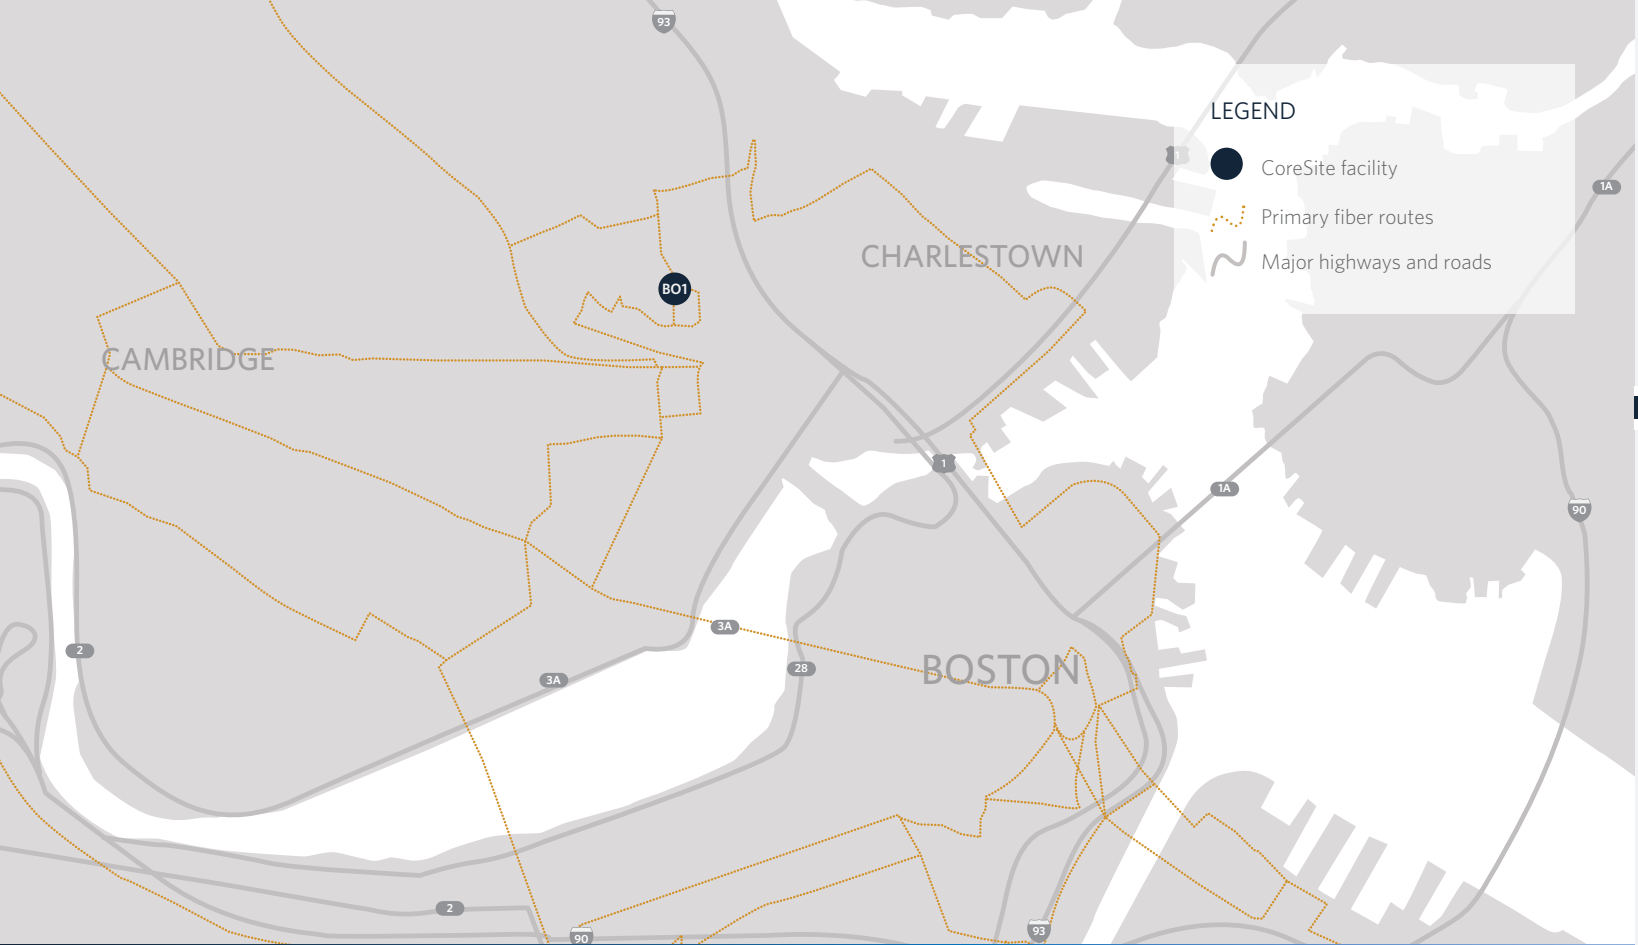

BO1 Bordering Cambridge and Boston's central business district, BO1 provides over 253,000 sq. ft. of data center space and tethered connectivity to regional communication hubs.

"CoreSite makes it easy for us to provide a safe, secure, reliable experience for our customers. We're able to present our extensive roster of customers and prospects with direct access to all the services and applications they want in a single location."

Shawn Hakl,
**Vice President of Product and
New Business Innovation,**
Verizon Enterprise Solutions
