

CoreSite and Microsoft Azure

Fast, Reliable, Private Connectivity into Microsoft Azure

Expand Your Infrastructure with CoreSite and Microsoft Azure ExpressRoute

CoreSite offers native access to Microsoft Azure ExpressRoute, enabling dedicated connectivity between your infrastructure and Microsoft Azure, Office 365 and Dynamics 365. ExpressRoute connections bypass the public internet, offering more reliability, faster speeds, lower latencies and higher security than typical internet connections. With predictable, reliable and high-throughput connections offered by ExpressRoute, you can build hybrid cloud applications without compromising security or performance.

HOW IT WORKS

With Microsoft Azure ExpressRoute, you can establish direct connections to Microsoft Cloud Azure at CoreSite's ExpressRoute locations in all 11 markets through the Open Cloud Exchange® up to 10Gbps. ExpressRoute Direct is available available in select markets up to 100Gbps.

Customers can connect to Microsoft Azure through CoreSite's range of interconnection offerings, such as the Open Cloud Exchange®, ensuring flexible, scalable and cost-efficient connectivity.

BENEFITS

- ✔ **Increase Security** – Private, secure connectivity to nearly all Microsoft services
- ✔ **Accelerate Time to Market** – Microsoft Azure ExpressRoute helps you achieve business agility with frictionless migration of workloads between environments
- ✔ **Improve Data Manageability** – Low-latency connectivity between your infrastructure and Microsoft Azure enables seamless transfer of large data sets for high performance computing
- ✔ **Optimize Application Performance** – Microsoft Azure ExpressRoute enables fast, reliable connectivity that helps create an experience that keeps end users happy

The Open Cloud Exchange (OCX) – The OCX provides enterprise-class network connectivity services enabling modern, agile, multi-cloud and data center connectivity over a private network, taking the complexity out of hybrid cloud and site-to-site interconnection. The OCX is your platform for rapid, agile hybrid connectivity.

ACCELERATE YOUR DIGITAL BUSINESS

CoreSite's secure, reliable data centers provide the ideal environment for connecting to the Microsoft Azure ExpressRoute and building hybrid multicloud solutions. CoreSite is one of the only colocation providers in the U.S. to offer direct access to Azure edge nodes while providing the security of built-in network resiliency. When you colocate within CoreSite's data centers, located in edge markets across the U.S., you will benefit from seamless connectivity between your public and private IT infrastructure, and support your digital business now and into the future.

USE CASES

DATA STORAGE AND TRANSIT

Move your active and archival data quickly and efficiently between clouds and data destinations to support analytics and business intelligence

HIGH PERFORMANCE COMPUTING

Tap into powerful cloud computing to transform bold ideas into new products or services with cost-effective, scalable infrastructure

MODERNIZE AND FUTURE-PROOF INFRASTRUCTURE

With dedicated connectivity to the full suite of Microsoft Azure cloud products and services, you can add new tools and technologies as your business needs evolve
