

CoreSite Achieves “Six 9s” Availability for Fifth Consecutive Year

January 7, 2016

Supporting performance-sensitive customer requirements with industry-leading reliability

DENVER--(BUSINESS WIRE)--Jan. 7, 2016-- CoreSite Realty Corporation (NYSE:COR), a premier provider of secure, reliable, high-performance cloud-enabled data center solutions across the U.S., today announced that for the fifth consecutive year it has achieved portfolio-wide uptime exceeding 99.9999 percent, or “six 9s”, across its platform of data center facilities.

CoreSite's high-availability data centers ensure an industry-leading level of operational performance, with six 9s availability being equivalent to unscheduled downtime of less than 32 seconds per year against CoreSite's 100 percent uptime service level agreement. By contrast, five 9s uptime correlates to downtime exceeding five minutes annually. When compared to five 9s, six 9s availability provides businesses with nearly 10 times the statistical reliability in the data center environment. Operating at such a high level of availability and reliability is paramount in today's high-tech marketplace, underscoring the critical importance of enabling information and communications technology capabilities.

“We are once again pleased that our focus on operational excellence and the professionalism of our Field Operations organization has resulted in our achievement of six 9s uptime across our national platform of highly connected, cloud-enabled, enterprise-class data centers,” said Tom Ray, CEO at CoreSite. “We take pride in delivering high-performance data center and interconnection solutions, all supported by best-in-class customer service, to enable business performance.”

The reliability of CoreSite data centers hinges on maintaining strict standards of excellence for the company's Facilities and Field Operations team. CoreSite's related on-site professionals undergo rigorous internal training and recurring exams that each professional must pass to reach specified levels of accountability. CoreSite's platform is validated across numerous compliance regimes, including PCI, DSS, and SSAE 16 SOC 1 and SOC 2 Type 2; additionally, CoreSite has attained the International Organization for Standardization certification (ISO 27001) covering both its corporate policies and procedures as well as those of all of its operating data centers. Together these attestations provide customers with an additional, third-party review of the reliability of CoreSite's professionals, infrastructure and systems.

About CoreSite

CoreSite Realty Corporation (NYSE:COR) delivers secure, reliable, high-performance cloud-enabled data center solutions across eight key North American markets. Forward Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as “believes,” “expects,” “may,” “will,” “should,” “seeks,” “approximately,” “intends,” “plans,” “pro forma,” “estimates” or “anticipates” or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: any adverse developments in local economic conditions or the demand for data center space in these markets; operational difficulties, including difficulties relating to information systems, internal processes and information security; significant industry competition; financial market fluctuations; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled “Risk Factors” in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.
