

## SEA-US Trans-Pacific Cable System Selects CoreSite's Los Angeles Data Center Campus for Its North American Access Point

January 16, 2017

*Providing submarine cable connectivity between Asia and the West Coast of the United States*

DENVER--(BUSINESS WIRE)--Jan. 16, 2017-- CoreSite Realty Corporation (NYSE:COR), a premier provider of secure, reliable, high-performance [data center](#) and [interconnection](#) solutions across the U.S., announced today that CoreSite will be the access point for the SEA-US Trans-Pacific Cable System in its [Los Angeles](#) data center campus. SEA-US's Submarine Line Terminating Equipment (SLTE) will be hosted by CoreSite and directly connect the West Coast of the U.S. with Indonesia and the Philippines, including Manado in Indonesia, Davao in Southern Philippines; Piti in the territory of Guam; as well as Honolulu (on the island of Oahu), Hawaii. The SEA-US cable system addresses the traffic demands for broadband and mobile content on the trans-Pacific route with unmatched latency from Indonesia to the United States.

The system will be approximately 15,000 kilometers in length, stretched along a unique route and has been designed and engineered to bypass earthquake prone areas in East Asia, thereby providing a unique and strategic diverse path in the range of connectivity to transpacific networks with ensured stable and reliable connectivity.

"CoreSite drives high-performance solutions to business requirements by connecting strategic communities of interest supported by best-in-class network and computing services," said Paul Szurek, CEO of CoreSite. "The SEA-US submarine cable system will be the sixth subsea cable to offer direct access from our Los Angeles campus, augmenting the importance of CoreSite's data center platform in the trans-Pacific route to key Indonesian and Asian markets."

The CoreSite [Los Angeles](#) campus includes two data center facilities – LA1, also known as One Wilshire®, and LA2 with over 424,000 square feet of scalable space in downtown Los Angeles, connected by robust dark-fiber assets. With over 500 current customers, 240 of which are networks, CoreSite's Los Angeles campus is one of the most densely interconnected data center campuses in the world, making it a strategic landing point on the SEA-US cable system. Using SEA-US, CoreSite customers will benefit from a state-of-the-art high-performance route connecting businesses to Southeast Asia.

The SEA-US trans-Pacific cable system is backed by a consortium of seven investing companies, including PT. Telekomunikasi Indonesia International, Globe Telecom, Hawaiian Telecom, Teleguam Holdings, GTI Corporation, RAM Telecom International (RTI), and Telkom USA, and has been designed with 2-fiber-pair cable and optical transmission technologies with an initial capacity of 20 terabit per second (Tb/s) (100 Gigabit per second (Gb/s) x 100 wavelengths x 2 fiber-pairs). The SEA-US system is expected to begin operating during the second quarter of 2017.

### About CoreSite

CoreSite Realty Corporation (NYSE:COR) delivers secure, reliable, high-performance data center and interconnection solutions to a growing customer ecosystem across eight key North American markets. More than 1,000 of the world's leading enterprises, network operators, cloud providers, and supporting service providers choose CoreSite to connect, protect and optimize their performance-sensitive data, applications and computing workloads. Our scalable, flexible solutions and 400+ dedicated employees consistently deliver unmatched data center options — all of which leads to a best-in-class customer experience and lasting relationships. ### Forward-Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: any adverse developments in local economic conditions or the demand for data center space in these markets; operational difficulties, including difficulties relating to information systems, internal processes and information security; significant industry competition; financial market fluctuations; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.
