

National Tier 1 Wireless Provider Turns Up Multiple 100 Gig Ports on CoreSite's Any2Exchange for Internet Peering

March 7, 2017

DENVER--(BUSINESS WIRE)--Mar. 7, 2017-- CoreSite Realty Corporation (NYSE:COR), a premier provider of secure, reliable, high-performance [data center](#) and [interconnection](#) solutions across the U.S., today announced that a national tier 1 wireless provider has turned up multiple 100 gig ports on the [CoreSite Any2Exchange for Internet peering](#) in the [Los Angeles](#) market. The CoreSite Any2Exchange® for Internet peering, which is the second largest Internet exchange in the United States and the largest Internet exchange on the West Coast, provides an efficient and effective platform for networks, digital content providers, and Enterprises to exchange Internet traffic.

This major wireless provider chose CoreSite for its flexibility, allowing for remote connectivity, access to a robust peering community, and the redundancy built into the CoreSite Any2Exchange for Internet peering, which provides industry-leading performance and reliability.

CoreSite owns and operates the Any2Exchange for Internet peering, which has 400+ members across all CoreSite markets. CoreSite provides direct access to local Any2 exchanges, at all of CoreSite's data centers, with regional exchanges accessible in California and the Northeast. CoreSite's switch fabric features a dual-core, dual-edge setup for increased reliability and improved network disaster recovery configuration, and offers flexible and scalable connectivity options over a variety of speeds, including 1Gbps and 10Gbps, as well as 100Gbps in select locations.

"We are very pleased to have a national tier 1 wireless provider connect with multiple 100 gig ports to join our growing community of Any2Exchange for Internet peering participants," said Ben Green, vice president of sales, network and mobility at CoreSite. "Through our investments in the technology supporting the CoreSite Any2Exchange for Internet peering, we enable our customers to instantly connect with members from around the globe, while providing a cost-effective and low network latency solution."
