

CoreSite Launches New Customer Community

January 14, 2016

Enabling CoreSite's diverse communities of interest to connect, grow their business and address mission-critical IT needs

DENVER--(BUSINESS WIRE)--Jan. 14, 2016-- CoreSite Realty Corporation (NYSE:COR), a premier provider of secure, reliable, high-performance cloud-enabled data center solutions across the U.S., today announced the launch of the [CoreSite Community](#), a new dynamic interface that enables CoreSite's diverse communities of interest to connect and do business with one another throughout CoreSite's 17 operational facilities in eight geographic markets.

The CoreSite Community provides direct access into CoreSite's robust communities of interest of domestic and international carriers, financial services providers, cloud computing providers, IT and managed service providers, healthcare companies and other enterprises. The user-friendly interface allows users to sort through community members by location and business requirements, then directly contact a representative through an online request form, thus enhancing growth prospects and promoting brand awareness.

"At CoreSite we understand the value of connecting businesses together, and our diverse customer base includes value-added services from various verticals, such as private and public cloud, data storage, transition and managed services," said Steve Smith, Senior Vice President, Sales and Marketing at CoreSite. "The CoreSite Community offers a simple, user-friendly interface to quickly identify and unlock the value of those various services to our customers. We currently actively manage more than 20,000 customer interconnections across our platform, and look forward to providing our customers with new and efficient ways to connect with each other as well as quickly locate potential suppliers, partners and customers for their businesses needs through the CoreSite Community."

The first phase of the CoreSite Community launched with strong participation. The CoreSite Community is an exclusively opt-in program and only represents a sub-set of the more than 900 customers available to connect within CoreSite's facilities. To see the full list of customers on CoreSite's Community and learn more about this exciting program, visit <http://www.coresite.com/community>.

About CoreSite

Forward Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: any adverse developments in local economic conditions or the demand for data center space in these markets; operational difficulties, including difficulties relating to information systems, internal processes and information security; significant industry competition; financial market fluctuations; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.
