

## CoreSite to Power iland's East Coast Hybrid Cloud Network

August 20, 2013

### iland expands in CoreSite's Reston, VA facility; joins Open Cloud Exchange

DENVER, Aug. 20, 2013 /PRNewswire/ -- CoreSite, a provider of network-dense, cloud-enabled data center solutions and the CoreSite Mesh, today announced that iland is growing its Enterprise Cloud Services (ECS) offering by expanding its presence within CoreSite's Reston, VA facility and joining the Open Cloud Exchange, CoreSite's performance-driven Ethernet on-ramp to the cloud. iland, a global provider of enterprise-class, private, public, and hybrid infrastructure-as-a-service (IaaS) solutions, is a CoreSite customer in Northern Virginia, Boston and Los Angeles.

iland's ECS offering provides customers with a hybrid cloud infrastructure that delivers secure and flexible mission-critical performance for enterprise-class applications. Coupled with CoreSite's high-performance and network-dense connectivity options, ECS will provide CoreSite customers in Northern Virginia and across the East Coast with a single location for hybrid cloud services and enable them to quickly scale and simplify their IT environments, increasing the operational, business and financial benefits.

CoreSite's Open Cloud Exchange is purpose-built for the delivery of cloud-based IT resources and applications and provides customers with unprecedented choice and control over their cloud deployments. iland is the latest of several brand name service providers and enterprises to join the CoreSite Open Cloud Exchange across eight CoreSite markets in the U.S.

"We're proud to continue our longstanding relationship with CoreSite and add our Enterprise Cloud Services portfolio to the growing list of services available to customers of the CoreSite Open Cloud Exchange," said Brian Ussher, President at iland. "Working together with CoreSite, we're making it easier for enterprises to build customized, high-performance hybrid cloud environments easily and securely."

"iland offers a flexible and highly scalable cloud environment that builds upon the innovative nature of our Open Cloud Exchange, enabling customers to bring products to market faster and increase efficiency and profitability," said Jarrett Appleby, Chief Operating Officer at CoreSite. "With over 180 cloud customers connected across the CoreSite Mesh, CoreSite is evolving into the preferred community for the cloud."

#### **About iland**

iland Internet Solutions, VMware's Service Provider Partner of the Year Global and Americas, provides hosted cloud infrastructure services in North America and Europe that enable customers to leverage enterprise class infrastructure in the form of virtual datacenters with flexible billing and capacity models. Solutions include secure hosted environments for virtual servers and desktops, test and development, cloud-based disaster recovery, and hybrid cloud services to maximize the value of existing VMware based environments. #### **Forward Looking Statements**

*This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control, that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: the geographic concentration of CoreSite's data centers in certain markets and any adverse developments in local economic conditions or the demand for data center space in these markets; fluctuations in interest rates and increased operating costs; difficulties in identifying properties to acquire and completing acquisitions; significant industry competition; CoreSite's failure to obtain necessary outside financing; CoreSite's failure to qualify or maintain its status as a REIT; financial market fluctuations; changes in real estate and zoning laws and increases in real property tax rates; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.*
