

Amazon Web Services Adds AWS Direct Connect to CoreSite's Santa Clara Campus

June 6, 2016

CoreSite Continues to Expand Direct Access to AWS Direct Connect with Deployment at CoreSite's Santa Clara Campus

DENVER--(BUSINESS WIRE)--Jun. 6, 2016-- CoreSite Realty Corporation (NYSE:COR), a provider of secure, reliable, high-performance [data center](#) and [interconnection](#) solutions across the U.S., today announced the availability of Amazon Web Services (AWS) Direct Connect at [CoreSite's Santa Clara Campus](#) in the Silicon Valley Market. Through [AWS Direct Connect](#), CoreSite customers can directly access AWS cloud services over a private, enterprise-grade network connection. The benefits of this direct access include reduced network costs, improved network security, and greater network performance.

CoreSite has been providing its customers with direct access to [AWS Direct Connect](#) service since 2011. With this expansion, AWS Direct Connect is now directly available in three CoreSite markets with deployments in [Los Angeles](#), [New York/New Jersey](#), and [Silicon Valley](#). Additionally, access to AWS Direct Connect is available in five major markets through CoreSite's Open Cloud Exchange. AWS Direct Connect is available across CoreSite's entire [data center portfolio](#) through its carrier partners.

CoreSite customers can access AWS Direct Connect via a cross connection as well as elastic on-demand connectivity through the [CoreSite Open Cloud Exchange](#). Direct access provides an alternative to using the Internet to access AWS cloud services by establishing private, low latency network connections at reduced cost. The availability of AWS Direct Connect in CoreSite's Santa Clara campus represents the second Direct Connect location in the Northern California market, and provides customers with the ability to create redundant connections. The AWS secure cloud services platform offers compute power, database storage, content delivery, and other functionality to help enterprises realize the value and benefit of a [hybrid IT solution](#) as they move more workloads to cloud environments.

"As enterprise customers look to adopt and deploy hybrid-cloud solutions, our goal is to provide simple and reliable connectivity options to enable them to maximize their IT investments and realize the benefits of the cloud," said Brian Warren, Senior Vice President of product and engineering at CoreSite. "CoreSite is pleased to expand the availability of AWS Direct Connect into Silicon Valley as it aligns with our commitment to providing our customers with secure, high-performance data center and interconnection solutions to support their evolving needs."

About CoreSite

CoreSite Realty Corporation (NYSE:COR) delivers secure, reliable, high-performance data center and interconnection solutions across eight key North American markets. More than 900 of the world's leading enterprises, network operators, cloud providers, and supporting service providers choose CoreSite to connect, protect, and optimize their performance-sensitive data, applications, and computing workloads. Our scalable, flexible solutions and 350+ dedicated employees consistently deliver unmatched data center options — all of which leads to a best-in-class customer experience and lasting relationships. Forward-Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "pro forma," "estimates," or "anticipates," or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and contingencies, many of which are beyond CoreSite's control that may cause actual results to differ significantly from those expressed in any forward-looking statement. These risks include, without limitation: any adverse developments in local economic conditions or the demand for data center space in these markets; operational difficulties, including difficulties relating to information systems, internal processes, and information security; significant industry competition; financial market fluctuations; and other factors affecting the real estate industry generally. All forward-looking statements reflect CoreSite's good faith beliefs, assumptions, and expectations, but they are not guarantees of future performance. Furthermore, CoreSite disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could cause CoreSite's future results to differ materially from any forward-looking statements, see the section entitled "Risk Factors" in CoreSite's most recent annual report on Form 10-K, and other risks described in documents subsequently filed by CoreSite from time to time with the Securities and Exchange Commission.
